# Victoria Garrity

Victoria Garrity is a Senior Quantitative Analyst in the Supervision, Regulation and Credit Department at the Federal Reserve Bank of Boston. As a member of the Department's Quantitative Analysis Unit, Victoria focuses on operational risk measurement, management and quantification through her involvement in bank examinations, policy work, and various Basel II-related initiatives. Recent work includes developing the 2008 international loss data collection exercise and authoring several articles on Basel II and operational risk management. Victoria is also involved in Basel II implementation and qualification for the U.S.

Previously, Victoria worked at the Federal Reserve Bank of New York. Victoria received her B.A. in mathematics from Ithaca College and her M.A. in economics from Boston University. She is also a CFA charterholder.
